PROFESSIONAL SUMMARY

Frontend Developer specializing in React.js applications, workflow automation, and analytics dashboards. Experienced in building reusable component-based interfaces, integrating REST APIs, managing application state with Context API and React Hooks, and optimizing frontend performance.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, React Router

State Management: Context API, React Hooks

API Integration: REST APIs, Axios, Fetch API

Concepts: Responsive Design, Component Reusability, Performance Optimization (Memoization)

Tools: Git, GitHub, VS Code, Vercel

Familiar: TypeScript, Next.js

PROJECT EXPERIENCE

On-Demand Service Platform | React.js, Tailwind CSS, Context API

- Built a role-based task assignment system with access control and workflow routing.
- Designed a rule-based workflow engine for task validation and state transitions.
- Developed reusable components to improve UI scalability and reduce code duplication.
- Optimized state management using Context API, reducing unnecessary prop drilling.

Productivity & Analytics System | React.js, Tailwind CSS, Axios, REST APIs

- Developed a multi-module analytics dashboard with real-time, API-driven data visualization.
- Improved rendering performance by 35% through memoization and optimized state updates.
- Structured shared application state across modules using React Hooks and Context API.

E-Commerce Platform | React.js, Tailwind CSS, REST APIs

- Built a full-cycle e-commerce frontend covering product listing, cart, authentication, and checkout.
- Integrated REST APIs for authentication, cart operations, and order management.

EDUCATION

B.Tech in Computer Science – Vardhaman College of Engineering, Hyderabad | 2020 – 2024

CERTIFICATIONS

Full-Stack – FreeCodeCamp | Advanced SQL – HackerRank | JavaScript – GeeksforGeeks
