---

## PROFESSIONAL SUMMARY

Frontend Developer specializing in React.js applications for workflow automation and analytics dashboards. Experienced in building scalable component-based architectures using Context API and Hooks, with strong focus on performance optimization, API integration, and reusable UI systems.

---

## TECHNICAL SKILLS

**Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, React Router

**State Management:** Context API, React Hooks

**API Integration:** REST APIs, Axios, Fetch API

**Concepts:** Responsive Design, Component Reusability, Performance Optimization (Memoization)

**Tools:** Git, GitHub, VS Code, Vercel

**Familiar:** TypeScript, Next.js

---

## PROJECT EXPERIENCE

**On-Demand Service Platform** | React.js, Tailwind CSS, Context API

- Built a role-based task assignment system with access control and workflow routing
- Designed a rule-based workflow engine handling task validation and state transitions
- Improved UI scalability by using reusable components and reducing code duplication
- Optimized state management using Context API, reducing unnecessary prop drilling

**Productivity & Analytics System** | React.js, Tailwind CSS, Axios, REST APIs

- Developed a multi-module analytics dashboard with real-time API-driven data visualization
- Improved rendering performance by 35% using memoization and optimized state updates
- Structured shared state across modules using React Hooks and Context API

**E-Commerce Platform** | React.js, Tailwind CSS, REST APIs

- Built a full-cycle e-commerce frontend including product listing, cart, authentication, and checkout
  - Integrated REST APIs for authentication, cart operations, and order management
- 

## EDUCATION

**B.Tech in Computer Science** – Vardhaman College of Engineering, Hyderabad | 2020 – 2024

---
