PROFESSIONAL SUMMARY

Frontend Developer specializing in building responsive user interfaces using React.js, JavaScript (ES6+), HTML5, and CSS3. Experienced in developing reusable UI components, responsive web designs, and scalable frontend applications using component-based architecture.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, React Router

State Management: Context API, React Hooks

API Integration: REST APIs, Axios, Fetch API

Concepts: Responsive Design, Component Reusability, Performance Optimization (Memoization)

Tools: Git, GitHub, VS Code, Vercel

Familiar: TypeScript, Next.js

PROJECT EXPERIENCE

On-Demand Service Platform | React.js, Tailwind CSS, Context API

- Developed a responsive React.js application for role-based workflow management.
- Developed reusable React.js UI components to improve maintainability.
- Managed shared application state using React Hooks and Context API for improved maintainability.
- Implemented responsive web design for a consistent user experience.

Productivity & Analytics System | React.js, Tailwind CSS, Axios, REST APIs

- Developed a responsive analytics dashboard with REST API integration for data visualization.
- Improved rendering performance by **35%** using memoization and optimized state updates.
- Built reusable UI components to deliver responsive and user-focused interfaces.

E-Commerce Platform | React.js, Tailwind CSS, REST APIs

- Built a responsive React.js e-commerce frontend with product listing, cart, and checkout features.
 - Integrated REST APIs for authentication, cart management, and order processing.
-
